THE TRAINING

Kickstart your AI learning journey with this one-hour introductory session crafted to demystify AI for newcomers and illustrate its influence across various facets of society and industry.

Through a thorough exploration, we embark on your first AI journey and provide a stepping stone to understanding AI's concepts and real-world applications.

FOR WHOM?

Designed for organizations, employees, and managers navigating the concern and excitement amid the buzz surrounding generative AI.

Tailored for those seeking a deeper understanding of what AI is and its potential implications for both their roles and the overall success of the organization.

WHAT WE WILL COVER

AI And Society

Explore the wide-ranging impacts of AI on our world, touching on ethics, economics, and daily life.

Decoding AI Terminology

Dive into the key terms and concepts that make up the language of AI, ensuring a solid foundational understanding.

AI Applications

Get a glimpse into the various practical applications of AI across different industries and domains.

AI & You

Understand how AI interplays with individual roles and responsibilities in various professional landscapes.

RESULTS

Inspiration about what AI can bring ■ A first glimpse into different AI tools ■ Do's and don'ts when starting to work with AI

DELIVERABLES

Inspired and enthusiastic participants that are ready to start exploring AI in a safe way ■ Course material ■ AI Explorer Certificate

WHO WE ARE

Judith Van Hoof – CEO

Judith is a transformation leader and has been working in the change and transformation field for over 15 years. With a master of Science degree in Organisation Sociology, understanding processes and people is her expertise.

She has guided big and small organisations in their Digital and Agile transformations and is an inspirational trainer and speaker.

Andre Van Haften – CAIO

Andre is a seasoned IT professional who has evolved from a support engineer to a freelance senior specialist focusing on automation and collaboration. He excels in implementing AI-driven solutions, optimizing workflows, and transforming organizations.

With expertise in platforms like SharePoint, Andre guides teams through process-level transformations, empowering businesses to thrive in the digital age. His dedication, deep understanding of cutting-edge technologies, and passion for enhancing productivity position him as a dynamic professional ready to drive positive change for organizations.
